INWIT ACTIVITIES

Infrastrutture Wireless Italiane S.p.A. (hereinafter “**INWIT**” for short, or the “**Company**”) operates in Italy in the field of electronic communications infrastructure, and specifically infrastructure devoted to hosting equipment for radio broadcasting, telecommunications, and television and radio signals broadcasting.

INWIT operates in the sector as a result of the transfer from TIM in March 2015 (effective April 1, 2015) of a business unit focused mainly on activities related to the construction and management of the sites' passive infrastructures, generally consisting of civil structures (such as towers, pylons, and poles) and technological systems, necessary to host the transceiver equipment owned by mobile operators and other radio service operators.

The closing of the integration in INWIT transaction between INWIT S.p.A. and Vodafone Towers S.r.l. took place on March 25, 2020 for the purchase by the latter of 43.4% of the share capital of Vodafone Towers. On March 31, 2020, the merger between the two companies was finalized through the attribution to Vodafone Europe B.V. of no. 360,200,000 ordinary shares of INWIT, without a share capital increase and with the cancellation of the 43.4% stake previously acquired. On finalization of the merger, INWIT is therefore jointly controlled by TIM S.p.A. and Vodafone Europe B.V. each holding a 37.5% stake in the Issuer's share capital.

On April 23, 2020 TIM and Vodafone concluded an Accelerated Book Building transaction which resulted in the two shareholders each holding 33.173% of the share capital.

Subsequently, on October 5, 2020, TIM and Ardian finalized an agreement (Daphne3) according to which TIM S.p.A. controls 51% of the holding company, which in turn holds 30.2% of INWIT, while the consortium led by Ardian holds the remaining 49%. Of the other 3% of TIM's stake, 1.2% was sold to Canson Capital Partners with the option to buy the remaining 1.8%.

On March 31, 2020 the largest operator in Italy was established in the sector, with the mission of supporting TIM and Vodafone Italia S.p.A. in building the new network for the development of 5G, also guaranteeing access to its infrastructures to the entire market, also thanks to the space freed up from the joint TIM and Vodafone Italia S.p.A. project

The INWIT fleet, resulting from the merger, includes approximately 22,469 sites (of which 22,050 operational sites at 09.30.2020) distributed throughout the national territory and a number of tenants equal to 41,151. The technical and operational know-how of the Company is assured by the use of staff with strong specific experience, gained over many years working within TIM and Vodafone Towers.

Key factors of *INWIT competitive positioning*

As well as the widespread distribution and quality of the infrastructure, the key factors of INWIT's competitive positioning mainly concern:

- established relationships with the main radio-mobile operators that recognize the importance of the services offered by INWIT within their own value chain;
- visibility of revenues and significant generation of cash flow, guaranteed by long-term contracts that are renewable upon expiration, historically characterized by a high renewal rate, also considering the high quality of the sites made available;
- contracts safeguarded against inflation;
- technical and managerial know-how, ensured by the use of personnel with consolidated experience gained over years within TIM and, starting from March 31, 2020, the Vodafone company.

Integrated hosting services

At September 30, 2020, the Company's total revenue derived from its integrated hosting services, consisting in providing (*Tower Rental*) customers with:

- physical spaces on its vertical structures, which can host the radiating systems receiving and transmitting radio signals;
- indoor physical spaces suitable for the installation of customer equipment and the connection of their radiating systems;
- access to the electricity networks and technological systems consisting of power supply systems (including energy backup systems) and air conditioning and/or ventilation systems that ensure the correct operation of customer equipment;
- DAS & Small Cells connectivity services to improve the value proposition of Mobile Operators by optimizing radio coverage and increasing network capacity in high-traffic areas;
- access to the core network with full- backhauling to ensure high throughput for MNOs.

Integrated hosting services also include the provision of maintenance, monitoring and security management services of the premises and the technological systems.

With regard to infrastructure sites, ⁽¹⁾ which account for approximately 16% of the all sites, INWIT owns the civil structures only, not the technological systems ⁽²⁾. The latter, as a matter of fact, were not contributed and are still owned by TIM and Vodafone, as they are shared across fixed and mobile networks. Accordingly, the hosting services offered by INWIT at these sites consist only in providing physical space on the vertical support structures.

INWIT's customers are the leading national mobile network operators (MNOs) - Tim, Vodafone and Wind Tre and Iliad - with which it has entered into long-term contracts to provide hosting services and other radio service operators.

The customers' high profile, their concentration, the multi-year medium-long term duration of the commercial agreements signed with them, and the large volume of the services offered by the Company within the MNO's value chain, are the key aspects of the Company's business.

⁽¹⁾ The infrastructural sites are positioned in properties owned by or leased from VOD or TIM, in/on which TIM's or VOD's fixed telephone devices are located.

⁽²⁾ That is, all equipment owned by the Company consisting of: (i) power system including panels and integrated power substation, complete with backup batteries; (ii) earthing system; (iii) lightning protection system; (iv) air conditioning and/or ventilation system; (v) flight obstacle signaling system, built and/or installed at the sites.

HIGHLIGHTS AT SEPTEMBER 30, 2020

In the first nine months of 2020, the main economic and financial indicators all showed an upward trend, including – obviously – after the merger with Vodafone Towers S.r.l. on March 31, 2020.

- Revenues amounted to 473,478 thousand euros, up 62.1% compared to the same period of 2019 (292,163 thousand euros). It should be noted that one-off revenues were reported in the first nine months of both 2019 and 2020. In particular, for September 2020, they amounted to 6,765 thousand euros (recognition of prepayments relating to active contracts expired early) while in September 2019 they were 4,830 thousand (indemnification 2015/2018). Net of these items, the comparison with the same period of 2019 shows an increase of 62.4%;
- EBITDA amounted to 432,430 thousand euros, up 69.1% compared to the first nine months of 2019. This percentage increases to 70.7% excluding both the aforementioned one-off revenues and, for the one-off costs at September 2020 relating to the Daphne project – merger with Vodafone Towers – equal to 6,750 thousand euros and the one-off costs of 2,434 thousand euros at September 2019.
- EBIT amounted to 206,817 thousand euros, an increase of 31.0% compared to the same period of 2019; Excluding the aforementioned one-off revenues/costs, the comparison with the same period of 2019, shows an increase of 33.0% instead;
- the profit for the period amounted to 111,927 thousand euros, up 13.2% compared to the same period in 2019 (16.0% excluding the aforementioned one-off revenues/costs);
- the data for the third quarter of 2020 alone show the impact of the merger with Vodafone Tower S.r.l. through the comparison with the corresponding period of 2019, with the following increases in the main income indicators: revenues + 93.3%, Ebitda +106.1% and Ebit +59.1%;
- in comparison with the second quarter of 2020, figures are also up: revenues +0.9%, Ebitda +0.7% and Ebit +7.15%;
- capital expenditures in the period amounted to 77,618 thousand euros, up by 42,539 thousand euros compared to the first nine months of 2019 (+121.3%).
- Net Financial Debt was equal to 3,765,546 thousand euros. Compared to December 2019 (equal to 712,144 thousand euros), the increase is mainly due to the opening of a loan agreement with a pool of national and international banks, used for 2,150,500 thousand euros for the purchase of the investment in Vodafone Towers (value including fees due), of which an initial portion of 866,251 thousand euros was repaid in July 2020, and the contribution of Vodafone Towers S.r.l. in relation to IFRS 16 financial liabilities related to lease contracts (equal to 439,347 thousand euros). On July 1, 2020, INWIT successfully completed its first bond issue for a total amount of 1 billion euros. The fixed-rate bond, with a 6-year maturity, is listed on the regulated market of the Luxembourg Stock Exchange.
- The last table shows the value of EBITDAL, i.e. EBITDA after lease costs. For the sake of consistency, the figures for the last two quarters and the situation as at September 30, 2020 have been reported.

BUSINESS ENVIRONMENT

The infrastructure market for radio networks and those for mobile radio networks in particular, is affected by a deep transformation, characterized by:

- growth in mobile broadband connections and volumes of data traffic, due to the increasingly widespread use of images and video in communications and in personal and professional applications;
- expansion of 4G coverage which represents a fundamental technological discontinuity. Indeed, 4G is the first mobile radio network architecture specifically conceived and designed for data traffic; following closely behind, the rollout of the 5G, will involve the request for new hosting and the complete migration of the full IP Backhaul;
- evolution of mobile radio network architectures which, in order to deliver high speeds and low latencies require a high number of micro-cells that interoperate with macro-cell coverages;
- strategies to reallocate invested capital by operators who tend to outsource and share infrastructure assets and activities when they need to invest to acquire frequencies and develop the networks to cope with competitive changes.

In this context, TIM and Vodafone decided to join their network infrastructure throughout Italy and thereby also speed up 5G development. As known, INWIT consolidated the 10,989 Vodafone towers thereby becoming the second largest independent operator in Europe, with a fleet of over 22,000 towers. Italy's largest tower operator has the aim of supporting the development of innovative solutions across Italy, from smart cities, industry 4.0, to indoor coverage in large centers. For more information on this, please refer to the appropriate section of this document.

Over the nine months, INWIT:

- become more efficient by pursuing its plan to renegotiate leases and the land acquisition plan;
- met the demand for new sites by launching the construction of about 78 new sites;
- launched a multi-operator microcell cover plan in areas with the highest user and traffic concentration, installing over 900 remote units;
- modernized its sites, connecting 250 through fiber backhauling.

The impact of these strategies in the period ended September 30, 2020 is detailed below.

Increased co-tenancy

The table below shows the effects of new hosting agreements at September 30, 2020:

(amounts stated in thousands)		09.30.2020
Number of sites (*)	(a)	22.1
Number of hostings in place with <i>Tenants</i> (**)	(b)	41.2
Number of hostings in place with <i>Tenants</i> , excluding TIM and Vodafone Anchor Tenants (***)	(c)	9.0
Average number of <i>Tenants</i> per Site (Tenancy ratio)	(b)/(a)	1.85

(*) Operating sites net of sites being decommissioned and under construction.

(*) Excluding Sites in which the hosting service ceased during the period. Including IoT contracts.

(**)* Number of hostings on the same Site. Please note that each Tenant refers to one hosting per Site only.

As shown in the above table, at September 30, 2020, the average number of operators per site in the new Company perimeter after the merger, was 1.85x.

INCOME, BALANCE SHEET AND FINANCIAL PERFORMANCE AT SEPTEMBER 30, 2020

INWIT voluntarily prepares and publishes the Interim Financial Reports for the first and third quarters of each financial year.

The Interim Report at September 30, 2020 includes the Interim Management Report and Financial Statements at September 30, 2020 prepared in compliance with the IFRS accounting standards issued by the IASB and endorsed by the EU and, in particular, with IAS 34 Interim financial statements. The interim Financial Statements at September 30, 2020 are not subject to audit.

Lastly, the section entitled "Business Outlook for the year 2020" contains forward-looking statements in relation to the Group's intentions, beliefs or current expectations regarding financial performance and other aspects of the Group's operations and strategies. Readers of this press release are cautioned not to place undue reliance on these forward-looking statements as the actual results may differ materially from those contained in those forward-looking statements as a result of a number of factors, most of which are not within the Group's control.

MERGER BY INCORPORATION WITH VODAFONE TOWERS S.R.L.

On December 19, 2019, the INWIT Shareholders' Meeting approved the merger by incorporation of VOD Towers.

On March 25, 2020, the transaction between INWIT and VOD Towers was closed with the signing of the purchase deed from Vodafone Europe BV of 43.4% of the share capital of VOD Towers equal to 2,140,000 thousand euros and of the subsequent merger deed of the latter into INWIT.

The deed of merger took effect on March 31, 2020 and no. 360,200,000 ordinary shares of INWIT were attributed to Vodafone Europe BV for the exchange service (without share capital increase and with the cancellation of the minority stake held by INWIT in VOD Towers), which will be listed on the MTA organized and managed by Borsa Italiana.

The transaction is in keeping with the strategy of the continual improvement in profitability and market leadership that INWIT is pursuing in Italy.

Following the merger, the fair value of the customer contracts migrated from Vodafone Towers S.r.l. was analyzed and subsequently recognized in the financial statements.

As required by IFRS 3, the price adjustment mechanism was used, which resulted in a negative balance in favor of INWIT, leading to the recognition of a receivable from Vodafone set mainly against goodwill.

The accounting effects of the business combination, defined in accordance with the requirements of IFRS 3, are described in note 4 of the Interim Financial Report at September 30, 2020.

The structure of revenues and costs of the Company is largely made up of medium-term and long-term contracts, entered into as client or provider, under established financial terms and conditions. The main income statement items for the first nine months of 2020 are analyzed below:

Revenues

For the first nine months of 2020, these totaled 473,478 thousand euros (292,163 thousand euros in the corresponding period of 2019, +62.1%) and include revenues deriving from the service contract with Tim S.p.A. and Vodafone Italia S.p.A. (Master Service Agreement), from third-party customers on the transferred towers and the revenues from hosting on new sites and of new services.

Items which by their nature are non-linear or non-recurring ("one-off") are reported, relating to prepayments relating to active contracts expired early, totaling 6,765 thousand euros.

Net of those one-off revenues, the comparison with the first nine months of 2019 showed a 62.4% growth.

In detail:

(thousands of euros)	1.1 - 09.30 2020	1.1 - 09.30 2019	Change	
			In absolute values	%
Revenues relating to the Master Service Agreement with TIM S.p.A.	228,354	197,826	30,528	15.4
Revenues relating to the Master Service Agreement with Vodafone Italia S.p.A.	162,552	-	162,552	-
One-off revenues	6,765	4,830	1,935	40.1
Revenues from third-party customers on the transferred towers and other revenues	66,152	73,358	(7,206)	(9.8)
Revenues from hosting on new sites and of new services	9,654	16,149	(6,495)	(40.2)
Total	473,478	292,163	181,315	62.1 (*)

(*): Net of one-off revenues, the percentage is 62.4%.

EBITDA

EBITDA amounted to 432,430 thousand euros, with an EBITDA margin of 91.3% on revenues for the period (87.5% in the corresponding period of 2019). Compared to the first nine months of 2019, the increase was 69.1%, which rises to 70.7% when excluding the aforementioned one-off revenues/costs from the comparison.

EBITDA was particularly impacted by the change in the line items analyzed below:

- **Costs for lease of premises**

These amount to 2,368 thousand euros, down 5,240 thousand euros compared to the same period in 2019 (-68.9%). They represent 5.7% of the cost items with an impact on EBITDA (in 2019 they amounted to 20.9%). They consist of the residual lease payment liabilities excluded from the application of the accounting standard IFRS 16 (in force from 1.1.2019).

- **Employee benefits expenses - Ordinary expenses**

The item amounted to 11,824 thousand euros and reflects the organizational structure, which includes 198 employees.

- **Maintenance and other operating and service expenses**

The item amounted to 26,856 thousand euros (20,556 thousand euros in the first nine months of 2019).

Maintenance costs are mainly governed by the Maintenance Agreement signed with TIM S.p.A., in place since 2015, and with Vodafone Italia S.p.A., in place since the merger. There were also one-off costs relating to the Daphne project - integration with Vodafone Towers - equal to 6,756 thousand euros.

Depreciation and amortization, losses on disposals and impairment losses on non-current assets

Details are as follows:

(thousands of euros)	1.1 – 9.30. 2020	1.1 – 9.30 2019	Changes	
			amount	%
Amortization of intangible assets with a finite useful life	52,552	632	51,920	n.r.
Depreciation of owned tangible assets	40,049	10,444	29,605	283%
Amortization of rights of use on third-party assets	132,453	86,455	45,998	53.2%
(Gains)/losses on disposals and impairment losses on non-current assets	559	215	344	160.0%
Total	225,613	97,746	127,867	131.0%

Within intangible assets, the amortization charge relating to the allocation of 811,200 thousand euros due to the Customer Contract amounted to 52,030 thousand euros.

In tangible assets and rights of use on third-party assets, the increase in depreciation was attributable to the contribution of the assets relating to Vodafone Towers S.r.l. as of March 31, 2020.

EBIT

EBIT amounted to 206,817 thousand euros, with an EBIT ratio of 43.7% on revenues (compared to 54.1% in the same period 2019).

Net financial income/(expense)

This amounted to an expense of 47,508 thousand euros.

Income is equal to 2 thousand euros and mainly refers to interest income on bank and postal deposits and financial receivables.

Financial expenses amounted to 47,510 thousand euros and break down as follows:

(thousands of euros)	1.1 – 09.30.2020	1.1 – 09.30. 2019
Interest expenses and other financial expenses		
Interest to banks	15,234	815
Interest expense for finance leases	17,679	15,551
Interest expenses and other costs relating to bonds	4,516	-
Discounting charges (ARO fund and severance indemnity fund)	3,221	1,597
Financial fees	6,612	-
Other financial expenses	248	735
Total	47,510	18,698

Interest to banks refers to the financial charges paid during the period for the syndicated loan agreement and the interest incurred on short- and medium/long-term financial payables (*Bridge and Term Loan*) described in Note 14 - Financial liabilities (non-current and current).

Interest expenses on finance leases refer to leases accounted for pursuant to IFRS 16, in force from January 1, 2019.

Interest expense on bonds refers to the financial expenses relating to the bond issue. On July 1, 2020, 2020, INWIT successfully completed its first bond issue for a total amount of 1 billion euros. The fixed-rate bond, with a 6-year maturity, is listed on the regulated market of the Luxembourg Stock Exchange. Its characteristics are as follows:

- Maturity: July 8, 2026
- Coupon: 1.875%
- Issue price: 99.809%
- Effective yield: 1.909%, corresponding to a yield of 220 basis points above the benchmark rate (mid swap).

Financial fees mainly refer to the fees paid for agreeing and using the 3-billion-euro loan agreement to finance the Company's acquisition of the minority interest in VOD Towers and distribution of the extraordinary dividend net of accruals and deferrals for the period.

Other financial expenses refer to other expenses on financing transactions.

Income taxes

This item amounted to 47,382 thousand euros. The estimated tax charge on the basis of theoretical rates of 24.0% for IRES and 4.48% for IRAP resulted in gross tax of 60,143 thousand euros. After releasing deferred tax assets (3,875 thousand euros) and deferred tax liabilities (16,444 thousand euros) and netting off the lower income taxes relating to previous years (181 thousand euros), this resulted in tax of 47,382 thousand euros expensed to the income statement.

Profit for the period

The profit for the period was positive for 111,927 thousand euros, or 23.6% of revenues.

FINANCIAL POSITION AND CASH FLOWS PERFORMANCE

NON-CURRENT ASSETS

Goodwill: the item amounted to 6,112,784 thousand euros (compared to 1,411,770 thousand euros at December 31, 2019):

Pursuant to IFRS 3 (*Business combinations*), goodwill was recognized in the separate financial statements on the acquisition date of Vodafone Towers (March 31, 2020). It was determined as the difference between the consideration paid for 43.4% of the incorporated company added to the fair value assessment of the remaining 56.6% stake and the fair value at the acquisition date of the identifiable assets acquired net of the identifiable liabilities assumed.

Following the merger, the fair value of the customer contracts was recognized in intangible assets for 811,200 thousand euros. This resulted in a reduction in goodwill of 580,008 thousand euros and an increase in deferred tax liabilities of 231,192 thousand euros.

The price adjustment mechanism resulted in a negative balance of 20,800 thousand euros in favor of INWIT, which led to the recognition in the balance sheet of a receivable from Vodafone of the same amount, offset against goodwill (19,484 thousand euros) and an allowance for doubtful accounts (1,316 thousand euros) relating to invoices to issue to TIM for past Vodafone Tower receivables.

Following the analysis carried out by Vodafone and discussion with INWIT, an agreement was reached between the parties. In particular, INWIT:

- collected 18,700 thousand euros from Vodafone on October 9, 2020;
- will continue the collection process for 1,316 thousand euros in receivables from TIM;
- will avail of the IRAP tax benefit of 800 thousand euros provided by "Relaunch Decree" (Decree Law 34/2020).

CAPITAL EXPENDITURES

Capital expenditures made in the first nine months of 2020 totaled 77,618 thousand euros, of which 67,994 thousand euros refer to the purchase of land, land use rights, extraordinary maintenance, development of small cells, implementation of backhauling and construction of new infrastructures,

intellectual works, equipment and for capitalization of fees for the renegotiation of lease agreements during 2020.

The remaining 9,624 thousand euros relates to the capitalization of prior year fees (before 2020) for the renegotiation of lease contracts.

EQUITY

At September 30, 2020, equity amounted to 4,535,635 thousand euros, the breakdown of which is as follows:

(thousands of euros)	09.30.2020	12.31.2019
Share capital issued	600,000	600,000
Minus treasury shares	-	(222)
Share capital	600,000	599,778
Share premium reserve	3,691,703	660,000
Other reserves	119,433	119,196

Retained earnings (losses) including earnings (losses) for the period	124,499	182,219
Total	4,535,635	1,561,193

The increase in the share premium reserve is related to the reclassification of the merger reserve of 3,558,776 thousand euros arising from the merger agreements with Vodafone Towers. Under these agreements, the shareholders' equity of Vodt (198,316 thousand euros) was canceled, goodwill was recorded (5,500,460 thousand euros), the investment in Vodt was canceled (2,140,000 thousand euros) and the aforesaid merger reserve was created.

On 2 April, the remaining 83,399 treasury shares – that remained after management had been assigned 138,719 shares having achieved the objectives set out in the 2018-2020 Long Term Incentive Plan – were sold on the stock market. These transactions were carried out against the treasury share reserve in excess of nominal value, created for this purpose in 2018.

In addition to what has already been detailed with reference to EBITDA, financial debt relating to the first nine months of 2020 was affected by the following items:

Capital expenditure

Investments considered in cash flows refer to capex and related to the purchase of software, land and surface usage rights, the development of new Sites, and the extraordinary maintenance and development of smart cells and backhauling, totalling 67,994 thousand euros.

For further details, please refer to the Note "Tangible assets (owned and under finance leasing)" in the interim financial statements at 09.30.2020.

Change in net operating working capital

The change in working capital was positive at 22,388 thousand euros.

Financial income and expenses

The net flow of finance income and expenses accounted for during the year is equal to (47,508) thousand euros, determined by the balance between income (2 thousand euros) and expense (47,510 thousand euros). Financial expense on finance lease liabilities (IFRS16) of 17,679 thousand euros and interest paid to banks for medium/long-term loans of 15,234 thousand euros should be noted.

Recurring Free Cash Flow

The recurring free cash flow in the first nine months of 2020 – calculated net of one-off revenues and costs (at EBITDA level) – amounted to 227,200 thousand euros, up by 67.1% compared to the same period of 2019.

The following table shows the details of the items concerned:

BUSINESS OUTLOOK FOR THE YEAR 2020 ⁽³⁾

With the merger of Vodafone Towers S.r.l., INWIT has become the largest operator in Italy in the sector, with the mission of supporting TIM and Vodafone Italia S.p.A. in building the new network for the development of 5G, also guaranteeing access to its infrastructures to the entire market, also thanks to the space freed up from the joint TIM and Vodafone Italia S.p.A. project

The wireless infrastructure market is continuing its profound transformation and demand for services from mobile operators and other radio network operators is growing. Mobile Operators need to increase their Service Access Points to expand their 4G coverage and prepare for the transition from 4G to 5G. Wireless Fixed Access providers are also expanding their networks to increase coverage and improve the quality of service offered to customers.

Other radio network operators such as IoT and "Public Safety" providers are already on the market and new entrants are expected to specialize in specific product/market relationships through the innovative use models enabled by 5G. These market dynamics, together with the growing willingness of operators to share network infrastructure elements, lead INWIT to expect further growth in traditional business and a strong acceleration in new business.

The COVID-19 health emergency has led to a contraction of the economy, with potentially negative effects on the Company's economic, equity and financial situation. The rapid spread of COVID-19 from March 2020, and the consequent health emergency have led to economic uncertainty, not only in Italy, but globally.

The Company sees this situation as a medium risk since, despite the economic downturn, the activity carried out by INWIT is essential for the provision of telephone operators' services.

The Company has mapped the risks associated with Covid-19 and considers the occurrence of the events subject to these risks to be unlikely to occur given the industrial sector to which the Company belongs, characterized by low volatility, cyclicity of existing hosting, long-term contracts and high barriers to entry.

The potential risks identified by the company can be summarized as follows:

- **Negative impacts**, possibly significant, on the **prospects for the growth of revenues and profit margins**;
- The possible emergence of **delays** in the **provision of services** by the **Company's suppliers** (e.g. maintenance or construction of new Sites), **permits** from the various **public administrations**, **orders** from **Customers**;
- **Increased data consumption on mobile networks** may mean that mobile operators (INWIT customers) incur **higher interconnection costs** and **investments** in **capacity** and **coverage**. **It may not be possible to pass on these higher costs** to end consumers or they may end up **in default**, with negative impacts on the operators' economic and financial position;
- **Fluctuations in inflation**, which may be significant, cannot be excluded and could have a negative impact, possibly material, on the Issuer's income, balance sheet and cash flows.

(3) The chapter "Business outlook for the year 2020" contains forward-looking statements related to the Company's intentions, beliefs, or current expectations regarding the financial performance and other aspects of the Company's operations and strategies. Readers of this Report are reminded not to place undue reliance on such forward-looking statements, in that actual results may differ significantly from forecasts owing to numerous factors, the majority of which are beyond the Company's control.

At present, there are no significant negative impacts on the company's results that could generate losses in income/financial performance or delays in its strategic planning.

The information and conclusions regarding potential risks contained in this report are in line with the Prospectus.

MAIN RISKS AND UNCERTAINTIES

The business outlook for 2020 could be affected by risks and uncertainties caused by a multitude of factors, the majority of which are beyond INWIT's control.

The main risks concerning the business activities of the Company, which may impact, even significantly, on the ability to achieve the objectives set by the management, are presented below.

The risk factors concerning the Company

Risks related to potential conflicts of interest by some of the Directors

This risk is related to potential conflicts of interest arising from the fact that some members of the Board of Directors hold positions in companies that are part of the chain of control of the Company.

Risks related to key personnel

Any interruption in the employment relationship between the Company and its key personnel could have an adverse effect on the Company's income, balance sheet, and financial situation.

The results achieved by the Company also depend on the contribution of certain individuals who hold significant positions within the Company and have significant experience in the industry in which the Company is engaged (including, specifically, the CEO, the Head of "Administration, Finance and Control and Business Support", the Head of "Marketing & Sales" and the Head of "Technology Governance & MSA").

Risks related to the Company losing the authorization to conduct its activity

The activity carried out by the Company is subject to the issuance of special authorizations pursuant to the applicable regulations in effect.

In the event the general authorization is not renewed upon expiration or is revoked by the Ministry or the Authority should the Company fail to comply with the conditions and specific obligations provided for in the Electronic Communications Code, the Company would no longer be able to continue operating as a network operator for the installation and provision of Passive Infrastructure, which would result in significant adverse effects on its income, balance sheet, and financial situation.

Risks related to ownership of the rights to use the frequencies assigned to mobile network operators

The Company's activity is not linked to authorizations concerning the rights to use frequencies, which are held by mobile telephone operators on the basis of tender, awarding, and renewal procedures independently of the Company.

The Company's business depends on the ability of its mobile telephone operator customers to preserve their rights to use the frequencies and to renew the related authorizations. There is no certainty that in the long term, telephone operator customers will be able to retain ownership of the frequencies in relation to which the Company provides its services or that the frequencies currently held by such customers will be again allocated to them in the future.

Risks related to the contractual and administrative structure of the Sites

Given the importance of the Company's network infrastructure in the conduct of its business, any adverse events for such infrastructure could have negative effects on the income, balance sheet, and financial situation of the Company.

With regard to the Sites there is a risk that the lease, sublease and/or concession for use agreements are not renewed, the Company being thus obliged to restore the land to its original condition, or the risk that any renewals are not obtained on terms at least comparable to those in place, with negative impact on the profitability of Site operations and consequently on the financial position, earnings and cash flows of the Company.

Risks related to the Company's inability to implement its development strategy

In the event the Company is unable to successfully implement one or more of its development strategies, there may be negative effects on its activities and on its income, balance sheet, and financial situation.

The Company's ability to increase its revenues and improve profitability also depends on the successful implementation of its strategy. The Company's strategy is based, among other things, on the following elements:

- leveraging the assets of existing Sites by maximizing the co-tenancy ratio;
- rationalization of operating costs;
- development of new services consistent with its core business;
- expansion of the number of Sites in line with developments in demand.

In addition, any future amendments to the legislation applicable to the industry in which the Company and/or the Company's customers operate, including specifically any imposition of stricter limits to EMC emissions, could have adverse effects on the activities and on the income, balance sheet, and financial situation of the Company.

Risks related to the Loan Agreement

The Loan Agreements signed by the company to finance business activity provide for a series of general and covenant commitments for the Company, both positive and negative, which, although in line with market practice for loans and similar natures, could limit its operation. For additional information see the Note 14 "Financial liabilities (current and non-current)" to the interim Financial Statements at September 30, 2020.

Risks related to costs for restoring the Sites and potentially inadequate provision for restoration costs

As part of its activity following decommissioning of the site, the Company must dismantle the infrastructure and restore the site to its original condition if this is envisaged by any legal or constructive obligation in the lease relating to the areas/buildings where the infrastructure is located. In this regard it should be noted that, as a rule, the leases provide for the Company's obligation to dismantle and restore the site to its original condition. The valuation of the provision for restoration costs is affected both by the expected unit restoration costs and by the inflation/discount rates, which are beyond the Company's control and whose changes may adversely affect the income and balance sheet situation of the Company.

Without prejudice to the above, the provisions recognized in the Financial Statements at September 30, 2020 were considered adequate by the Company at the date of completion of this document.

Risks related to court and administrative proceedings and to potentially inadequate provisions.

Any adverse outcome in the principal legal proceedings in which the Company is involved, for amounts significantly higher than those for which provision has been made, could have negative effects on the Company's activities and on its income, balance sheet, and financial situation.

Without prejudice to the above, the provisions recognized in the Financial Statements at September 30, 2020 were considered adequate by the Company at the date of completion of this document.

Risk factors related to the industry in which the Company operates

Risks associated with the operation of existing sites, the identification of new sites suitable for the development of the Company's projects, and the issuance and/or revocation of administrative authorizations.

Any failure or delay in obtaining authorizations and permits for the Company, as well as their subsequent withdrawal, could lead to negative effects on the Company's operations and, consequently, on its income, balance sheet, and financial situation.

Risks related to the effects on infrastructure of natural disasters or other force majeure events

The proper operation of the infrastructure is essential for the Company's activity and to provide services to its customers. Although the Company believes that it has adequate insurance coverage in place to compensate any damage caused by natural disasters or other force majeure events, and has developed operating procedures to be followed should such events occur, any damage to part or all of the towers of the Company or, more generally, to its Sites, resulting from natural disasters or other force majeure events, could hamper or, in some cases, prevent the Company's normal operations and its ability to continue to provide services to its customers.

Risks related to the discontinuation of Site activities

The Company relies on infrastructure to provide its services and, more generally, to conduct its business; by its very nature, this infrastructure is subject to interruptions or other malfunctions caused, among other things, by prolonged power outages, security issues, or suppliers' defaults. Any network outage, access by unauthorized persons, and security breach or other failures of the Company's technical infrastructure or any actions taken in order to deal with or prevent them, could lead to significant additional costs for the Company, or prevent its operation, with possible negative effects on the Company's activities and on its income, balance sheet, and financial situation.

Risks related to technical and technological developments

The Company's inability to identify technical solutions capable of addressing market changes and future needs could have a negative impact on the income, balance sheet, and financial situation of the Company.

Risks related to environmental and health protection

The Company is subject to comprehensive regulation on the protection of the environment and human health at the national and EU level. Although the Company is committed to be constantly in compliance with the applicable legislation, any violations of applicable environmental laws may result in adverse effects on the income, balance sheet, and financial situation of the Company.

Risks associated with the reference regulatory framework in relation to the activities carried out by the Company's customers

The activities of Company's customers are subject to complex regulations at national and EU level, especially with regard to environmental and administrative matters; in this context, the numerous regulatory requirements imposed by the relevant authorities are very important due to the indirect impact that customers' non-compliances could have on the Company's activities. Specifically, mobile phone operators hosted at the Company's sites are subject to regulations aimed at protecting people and the environment from exposure to electromagnetic fields.

Any infringement of the legal and regulatory framework applicable to the Company's customers could have a negative impact on the income, balance sheet, and financial situation of the customers and, indirectly, of the Company.

Risks associated with the possible contraction of customer demand for the Company's services

The Company offers integrated hosting services to its customers, with the aim of covering the entire value chain of the hosting business, in accordance with the business model adopted: from pure leasing of the equipment all the way to the services supporting the operation and maintenance of such equipment. Any contraction of customer demand for the services provided by the Company, even when due to contingent reasons, could have a negative impact on the Company's income, balance sheet, and financial situation.

Risks related to global economic conditions

The COVID-19 health emergency has led to a contraction of the economy, with potentially negative effects on the Company's economic, equity and financial situation. The rapid spread of COVID-19 from March 2020, and the consequent health emergency have led to economic uncertainty, not only in Italy, but globally.

The Company assesses the risk referred to in this Paragraph as medium. Although the COVID-19 health emergency is likely to lead to a contraction in the economy, with potentially negative effects on the economic, equity and financial situation of the Issuer, the activity carried out by INWIT is essential for the provision of the services of the telephone operators.

The Company has also mapped the risks associated with Covid and considers the occurrence of the events subject to these risks to be unlikely to occur given the industrial sector to which the Company belongs – telecommunications, which is among the least affected by the pandemic – and the Company's business model, which is characterized by low volatility, cyclicity of existing hosting, and long-term contracts. The potential risks identified and analyzed by the company were indicated in the previous chapter.

At present, there are no significant negative impacts on the company's results that could generate losses in income/financial performance or delays in its strategic planning.

The information and conclusions regarding potential risks contained in this report are in line with the Prospectus.

CORPORATE BOARDS AT SEPTEMBER 30, 2020

BOARD OF DIRECTORS

The Board of Directors, appointed by the Shareholders' Meeting of April 13 (as subsequently amended), remained in office until March 31, 2020, the effective date of the merger by incorporation of Vodafone Towers into INWIT (the "Merger"). By virtue of the Agreement signed by TIM S.p.A. Vodafone Europe B.V., Vodafone Italia S.p.A., INWIT S.p.A. and Vodafone Towers Srl, the Shareholders' Meeting, on March 20, 2020, appointed the Board of Directors, made up of 13 members, who will remain in office until the approval of the financial statements for the year ending December 31, 2022.

The Board of Directors took office on March 31, 2020, the effective date of the merger by incorporation of Vodafone Towers into INWIT.

The composition of the current Company's Board of Directors is shown below:

Chairman	Emanuele Tournon
Chief Executive Officer and General Manager	Giovanni Ferigo
Directors	Laura Cavatorta (independent) Antonio Corda Angela Maria Cossellu (independent) Sabrina Di Bartolomeo Sonia Hernandez Carlo Nardello Agostino Nuzzolo Filomena Passeggio (independent) Secondina Giulia Ravera (independent) Fabrizio Rocchio Francesco Valsecchi (independent)

All board members are domiciled for the positions they hold in INWIT at the registered office of the Company in 1 Via Gaetano Negri, Milan.

On October 2, 2020, the Board of Directors took note of the resignation of independent director Filomena Passeggio and non-executive director Carlo Nardello and appointed Rosario Mazza (independent) and Giovanna Bellezza (non-executive) as directors by co-optation pursuant to Article 2386, paragraph 1, of the Italian Civil Code.

The new directors will remain in office until the next Shareholders' Meeting, in accordance with the law.

On April 23, 2020 the Board of Directors established internal committees, made up at September 30, 2020 of:

- **Nomination and remuneration committee:** Filomena Passeggio (Chairman), Laura Cavatorta and Antonio Corda
- **Control and risks committee:** Angela Maria Cossellu (Chairman), Antonio Corda, Agostino Nuzzolo, Secondina Giulia Ravera and Francesco Valsecchi
- **Related parties committee:** Secondina Giulia Ravera (Chairman), Angela Maria Cossellu and Filomena Passeggio
- **Sustainability Committee:** Laura Cavatorta (Chairman), Sabrina Di Bartolomeo, Carlo Nardello, Fabrizio Rocchio and Francesco Valsecchi.

Also on April 23, 2020, the Board of Directors appointed – with effect from May 5, 2020 and until the expiration of the Board of Directors and therefore until the approval of the Financial Statements at December 31, 2022 – a Supervisory Board composed of Francesco Monastero (Chairman), Giuliano Foglia, Umberto La Commara and Laura Trucco, to carry out the functions set out in Legislative Decree 231/2001.

Until May 5, 2020, the functions of the Supervisory Body were performed by the Board of Statutory Auditors.

Finally, also on April 23, 2020, the Board of Directors appointed the Director Secondina Giulia Ravera as Lead Independent Director

Following the resignation on October 2, 2020 of the directors Passeggio and Nardello and the appointment by co-optation of the directors Mazza and Bellezza, the updated composition of the following board committees is shown below:

- **Nomination and remuneration committee:** Rosario Mazza (Chairman), Laura Cavatorta and Antonio Corda
- **Related parties committee:** Secondina Giulia Ravera (Chairman), Angela Maria Cossellu and Rosario Mazza
- **Sustainability Committee:** Laura Cavatorta (Chairman), Giovanna Bellezza, Sabrina Di Bartolomeo, Fabrizio Rocchio and Francesco Valsecchi.

BOARD OF STATUTORY AUDITORS

The April 13, 2018 Shareholders' Meeting appointed the Board of Statutory Auditors, which will remain in office until the Shareholders' Meeting called to approve the financial statements at December 31, 2020.

The Board of Statutory Auditors of the Company is now composed as follows:

Chairman	Stefano Sarubbi
Acting Auditors	Umberto La Commara Michela Zeme
Alternate Auditors	Roberto Cassader Elisa Menicucci

INDEPENDENT AUDITORS

The Shareholders' Meeting held on February 27, 2015 appointed the audit firm PricewaterhouseCoopers S.p.A. to audit the Company's financial statements for the nine-year period 2015-2023.

MANAGER RESPONSIBLE FOR PREPARING THE CORPORATE FINANCIAL REPORTS

At the meeting held on March 31, 2020, the Board of Directors assigned Diego Galli, Head of the Administration, Finance and Control & Business Support function, as Manager responsible for preparing the corporate financial reports.

INFORMATION FOR INVESTORS

Following completion of the Global Offering, on June 22, 2015, INWIT shares were listed on the MTA of Borsa Italiana at a price of 3.65 euros per share.

The following chart shows the performance of the stock in the period comprised between the start of trading and September 30, 2020.

INWIT SHARE CAPITAL AT SEPTEMBER 30, 2020

Share capital	600,000,000 euros
Number of ordinary shares (without nominal value)	960,200,000
Market capitalization (based on average prices between 1.1.2020 and 09.30.2020)	8,619 million euros

SHAREHOLDERS

Shareholders' structure at September 30, 2020

On April 23, TIM and Vodafone concluded an Accelerated Book Building transaction which resulted in the two shareholders each holding 33.173% of the share capital.

Subsequently, on October 5, TIM and Ardian finalized an agreement (Daphne3) according to which TIM controls 51% of the holding company, which in turn holds 30.2% of INWIT, while the consortium led by Ardian holds the remaining 49%.

Of the other 3% of TIM's stake, 1.2% was sold to Canson Capital Partners with the option to buy the remaining 1.8% (9.47 euros per share).

WAIVER OF THE OBLIGATION TO PUBLISH DISCLOSURE DOCUMENTS FOR EXTRAORDINARY OPERATIONS

On February 27, 2015 the Board of Directors of INWIT resolved to adopt the opt-out regime provided by article 70 paragraph 8 and article 71, paragraph 1-bis of Issuers' Regulation and exercised the option to waive the obligations to publish disclosure documents required under Annex 3B of the aforementioned Regulation in the event of significant transactions.

RELATED PARTY TRANSACTIONS

Pursuant to Article 5, paragraph 8, of Consob Regulation no. 17221/2010 concerning “transactions with related parties” and to the subsequent Consob Resolution no. 17389/2010, in 2020 there were no transactions of major significance, as defined by Article 4, paragraph 1(a) of the aforementioned regulation, or any other transactions with related parties, that had any significant impact on the Company's financial position or results for the first nine months of 2020.

Related party transactions, when not dictated by specific laws, were usually conducted at arm's length; the transactions were subject to an internal procedure (available for consultation on the Company's website at the following address: www.inwit.it, Governance section) which establishes procedures and time scales for verification and monitoring.

The information on related parties required by Consob Communication DEM/6064293 of July 28, 2006 is presented in the financial statements and in the Note “Related Parties” to the interim Financial Statements at September 30, 2020.

ALTERNATIVE PERFORMANCE MEASURES

In this Interim Management Report at September 30, 2020 of the INWIT Company, in addition to the conventional financial performance measures established by IFRS, certain *alternative performance measures* are presented for purposes of a better understanding of the Company's trend of operations and financial condition. Such measures, which are also presented in other periodical financial reports (annual and interim) should, however, not be construed as a substitute for those required by IFRS.

The alternative performance measures used are described below:

- **EBITDA:** this financial indicator is used by the Company as a financial target in internal presentations (business plans) and in external presentations (to analysts and investors). It represents a useful unit of measurement to assess the Company's operating performance in addition to **EBIT**. These measures are calculated as follows:

Profit (loss) before tax from continuing operations
+ Financial expenses
- Finance income
EBIT - Operating profit (loss)
+ Impairment losses (reversals) on non-current assets
/-
+ Losses (gains) on disposals of non-current assets
/-
+ Amortization and depreciation
EBITDA - Operating profit (loss) before depreciation and amortization, Capital gains (losses) and Impairment reversals (losses) on non-current assets

- **Net Financial Debt ESMA and Net Financial Debt INWIT:** the Net Financial Debt ESMA of the Company is calculated in accordance with the provisions of paragraph 127 of the recommendations contained in ESMA document No. 319 of 2013, implementing Regulation (EC) 809/2004, as shown below:

A Cash
B Other cash equivalents
C Securities held for trading
D Liquidity (A + B + C)
E Current financial receivables
F Current financial payables
G Current portion of financial payables (medium/long-term)
H Other current financial payables
I Current financial debt (F+G+H)
J Net current financial debt (I+D+E)
K Medium/long term financial payables
L Bonds issued
M Other non-current financial payables
N Non-Current financial debt (K+L+M)
O Net financial debt (J+N)

To monitor the performance of its financial position, INWIT also uses "INWIT net financial debt" as a financial indicator; it is defined as the ESMA net financial debt less receivables and non-current financial assets, where applicable.

NOTE 1 - FORM, CONTENT, AND OTHER GENERAL INFORMATION

FORM AND CONTENT

These interim financial statements of Infrastrutture Wireless Italiane S.p.A. (hereinafter **"INWIT"**, or the **"Company"**) for the period from January 1, 2020 to September 30, 2020 (hereinafter the **"Interim Financial Statements at September 30, 2020"**) were drawn up on the going concern assumption (for further details, see Note 2 "Accounting Standards"), in accordance with the International Financial Reporting Standards issued by the International Accounting Standards Board and approved by the European Union (defined as the **"IFRS"**) and with the legal and regulatory provisions in force in Italy (in particular, the measures adopted in implementation of Section 9 of Italian Legislative Decree no. 38 of February 28, 2005).

INWIT was established on January 14, 2015 and following the merger by incorporation of Vodafone Towers srl (hereinafter also **"VOD Towers"**) is jointly controlled by TIM S.p.A. (hereinafter also **"TIM"**) which holds, directly or indirectly, a stake of 32.0% in the Company, and Vodafone Europe BV, which holds a 33.2% stake in the Company. INWIT is domiciled in Italy, with registered office in via Gaetano Negri 1, Milan, and operates in accordance with the laws of the Italian Republic.

The figures at September 30, 2020 are compared with the figures from the statement of financial position at December 31, 2019; The figures from the separate income statement and from the statement of comprehensive income are compared with the figures for the corresponding periods of the previous financial year. The financial reports and the reports on changes in net equity are compared with those for the corresponding periods of the previous financial year.

The Company's financial year-end is December 31.

The interim Financial Statements at September 30, 2020 were prepared in accordance with the general cost principle, except for the initial entering of financial assets and liabilities for which the application of the fair value principle is compulsory; also, they were prepared in Euros. The values expressed in the notes to these financial statements are expressed in thousands of euros, unless otherwise indicated.

Publication of the interim Financial Statements at September 30, 2020 was approved by the Board of Directors' meeting on November 5, 2020.

FINANCIAL STATEMENT STRUCTURE

The structure of the Financial Statements is in keeping with that provided for by IAS 1; Specifically:

- the statement of financial position has been prepared by classifying assets and liabilities according to the "current and non-current" principle;
- the separate Income Statement has been prepared by classifying operating costs according to their nature, in that this method of reporting is deemed better capable of representing the Company's specific business, complies with internal reporting methods, and is in line with practices in the industrial sector in question. The Income Statement includes, in addition to EBIT (Operating Earnings), the alternative performance indicator called EBITDA (operating earnings before amortization, depreciation, gains/(losses), and Impairment reversals (losses) on non-current assets). Specifically, the Company utilizes EBITDA, in addition to EBIT, as a financial target in internal presentations (business plans) and external presentations (to analysts and investors); the indicator represents a useful unit of measurement for the evaluation of INWIT's operating performance. EBIT and EBITDA are calculated as follows:

Profit (loss) before tax from continuing operations	
+	Financial expenses
-	Finance income
+/-	Expenses (income) from investments
EBIT - Operating profit (loss)	
+/-	Impairment losses (reversals) on non-current assets
+/-	Losses (gains) on disposals of non-current assets
+	Amortization and depreciation
EBITDA - Operating profit (loss) before depreciation and amortization, Capital gains (losses) and Impairment reversals (losses) on non-current assets	

- the Statement of Comprehensive Income includes, besides the earnings (losses) for the period, as per the separate income statement, the other changes in Net Equity other than those connected to transactions with Shareholders;
- the statement of Cash Flows was prepared by showing the cash flows deriving from operating activities in accordance with the "indirect method", as allowed by the IAS 7 (Statement of financial position).

Furthermore, as required by CONSOB resolution no. 15519 of July 27, 2006, in the case of the separate income statement, income and expenses deriving from transactions which by their very nature do not regularly occur during normal business transactions (non-recurring transactions), are specifically identified and the corresponding effects on the main interim results are reported separately when of a significant entity. Specifically, non-recurrent expenses/income include, for example: income/expenses deriving from the sale of properties, plants and machinery, business units and shareholdings; expenses deriving from corporate reorganization and rationalization processes/projects, including those connected to corporate transactions (mergers, demergers, etc.); expenses resulting from litigation and regulatory penalties, and to related liabilities; other provisions for risks and charges, and the corresponding write-offs; expenses for the settlement of disputes; impairment losses on goodwill and/or other intangible and tangible assets.

In regard, once again, to the aforementioned CONSOB resolution, the amounts of positions or transactions with related parties have been reported separately.

SEGMENT REPORTING

An operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are reviewed periodically by the top operating level of the entity (the Board of Directors for INWIT) in order to adopt decisions concerning the resources to be allocated and to assess the results; and
- for which discrete financial information is available.

The Company has identified only one operating segment (which also represents the level at which the goodwill is monitored by management and will be tested for impairment). Specifically, the management information note prepared and made available to the Board of Directors for the aforementioned purposes considers the business activity carried out by INWIT as a distinct entity; therefore, no information by segment is presented in the financial statements. The geographical area coincides almost entirely with the territory of Italy.

NOTE 2 - ACCOUNTING POLICES

The main accounting policies and the most significant valuation criteria utilized to write these financial statements are described briefly hereafter.

GOING CONCERN

The interim Financial Statements at September 30, 2020 have been prepared on a going concern basis as there is the reasonable expectation that the Group will continue its operational activities in the foreseeable future (and in any event with a time horizon of more than twelve months).

ACCOUNTING CRITERIA

The accounting criteria adopted to prepare the interim financial statements at September 30, 2020 are consistent with those utilized for the yearly financial statements to December 31, 2019, to which reference is made, with the exception of the adjustments required by the nature of the interim measurements.

Furthermore, in the interim financial statements at September 30, 2020, income taxes for the period are calculated according to the best possible estimate based on available information and on a reasonable forecast of performance up to the end of the tax period. Conventionally, the income tax liabilities (current and deferred) on the profit for the interim period are recorded, net of advances and tax receivables (excluding receivables for which refunds have been requested) as well as deferred tax assets, and classified as an adjustment to "Deferred tax liabilities"; if the balance between deferred tax assets and deferred tax liabilities is an asset it is conventionally recorded in "Deferred tax assets".

USE OF ACCOUNTING ESTIMATES

The preparation of the interim financial statements at September 30, 2020 and related disclosure requires management to make estimates and assumptions based also on subjective judgments, past experience and hypotheses considered reasonable and realistic in relation to the information known at the time of the estimate. Such estimates have an effect on the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the amount of revenues and costs during the period. Actual results could thus differ, even significantly, from such estimates owing to possible changes in the factors considered in the determination of such estimates. Estimates are reviewed periodically.

The most significant accounting estimates that involve a high use of subjective assumptions and judgments are reported in the Annual Financial Report at December 31, 2019 to which reference is made.

NEW STANDARDS AND INTERPRETATIONS INCORPORATED BY THE EU AND IN EFFECT SINCE JANUARY 1, 2020

Pursuant to IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors), the IFRS in effect since January 1, 2020 are indicated and briefly described hereafter.

Amendments to IFRS 9, Financial instruments, IAS 39, Financial instruments: recognition and measurement and IFRS 7, Financial instruments: additional information - Reform of the reference indices for the determination of interest rates

On January 15, 2020, [Regulation \(EU\) 2020/34](#) was issued implementing some amendments at EU level to IFRS 9 - Financial instruments, IAS 39 - Financial instruments: recognition and measurement and IFRS 7 - Financial instruments: additional information.

The changes relate to some specific hedge accounting requirements and are aimed at providing an advantage in relation to the potential effects of the uncertainty caused by the reform of the Interbank offered rates (IBOR). In addition, the changes require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties.

These changes must be applied from January 1, 2020.

Amendments to the references to the "Conceptual Framework" in the IFRS

On November 29, 2019, [Regulation \(EU\) 2019/2075](#) was issued which implemented the revised version of the Conceptual Framework for Financial Reporting at EU level. The main changes compared to the 2010 version relate to:

- a new chapter on measurement;
- better definitions and guidance, in particular with reference to defining liabilities;
- clarifications of important concepts, such as stewardship, prudence and uncertainty in measurements.

A document was also published updating references in IFRS to the previous Conceptual Framework.

These changes must be applied from January 1, 2020.

Amendments to IAS 1 and IAS 8 (Definition of Materiality)

On November 29, 2019, Regulation (EU) 2019/2104 was issued which incorporated some amendments to IAS 1 (Presentation of the financial statements) and to IAS 8 (Accounting standards, changes in accounting estimates and errors).

These amendments clarify the definition of "materiality" and align the definition used in the "Conceptual Framework" with that used in the individual IFRSs. The definition of "materiality" as revised by the changes in question is as follows: "Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of a specific reporting entity's general purpose financial statements make on the basis of those financial statements."

The amendments in question come into force on January 1, 2020.

Amendments to IFRS 3 (Business combinations)

In October 2018, the IASB published some amendments to IFRS 3 (Business combinations). These amendments concern the definition of "business" and help entities determine whether an acquisition made is a "business" or a group of activities.

According to the new definition, a "business" is: "An integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return in the form of dividends, lower costs or other economic benefits directly to investors or other owners, members or participants." The amendments also clarify that, to be considered a business, an acquisition must include an input and a substantive process that together significantly contribute to the ability to create output".

The amendments in question come into force on January 1, 2020.

The adoption of these amendments/interpretations, with the exception of the accounting standard IFRS 16, did not have any effect on the Financial Statements at September 30, 2020.

Amendments to IFRS 16 - Leases Covid-19-Related Rent Concessions

In May 2020, the IASB published some amendments to IFRS 16 through *Covid-19-Related Rent Concessions*.

The amendment permits lessee not to assess whether particular rent concessions occurring as a direct consequence of the Covid-19 pandemic are lease modifications and instead to account for those rent concessions as if they are not lease modifications. The amendment has no impact on landlords.

The amendments in question come into force on June 1, 2020.

Any impacts on the Company's financial statements are currently being assessed.

NEW STANDARDS AND INTERPRETATIONS ISSUED BY THE IASB BUT NOT YET APPLICABLE

At the date of these interim financial statements, the following Standards/Interpretations have been issued by the IASB but are still not applicable.

Amendments to IAS 1 Presentation of the financial statements: classification of liabilities as current or non-current

In January 2020, the IASB issued some limited amendments to IAS 1 to clarify that liabilities are classified as current or non-current, depending on the rights existing at the end of the year. The amendment clarifies that:

- the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the "right" to defer settlement by at least twelve months and make explicit that only rights in place "at the end of the reporting period" should affect the classification of a liability. In other words, liabilities are classified as non-current if the entity has a substantial right to defer payment for at least 12 months at the end of the year;
- the classification is not influenced by expectations on whether an entity will exercise its right to defer the payment of a liability, in other words, management expectations do not affect the classification; and
- the payment/settlement refers to the transfer of liquidity, equity instruments, other assets or services to the counterparty.

These amendments must initially be applied retrospectively in accordance with IAS 8 for financial years starting from January 1, 2022. In light of the Covid-19 pandemic, the IASB issued an Exposure Draft proposing to postpone the effective date by one year to January 1, 2023.

Early application is allowed. If an entity applies these changes from a previous period, it must disclose that fact. Any impacts on the Company's financial statements are currently being assessed.

Amendments to IFRS 3 (Business Combinations), IAS 16 Property, Plant and Equipment, IAS 37 Provisions, Contingent Liabilities and Contingent Assets, Annual Improvements (2018-2020)

The set of amendments includes limited changes to three standards, as well as the Annual Improvements, in particular:

- The amendments to IFRS 3 - Business Combinations update an IFRS 3 reference to the *Conceptual Framework for Financial Reporting* without changing the accounting requirements for business combinations;
- The amendments to IAS 16 - Property, Plant and Equipment prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while preparing the asset for the intended use; The company will recognize the proceeds from selling such items, and the cost of producing those items, in profit or loss;
- The amendments to IAS 37 - Provisions, Liabilities and Contingent Assets specify which costs should be included when assessing whether a contract is onerous;
- The Annual Improvements make minor amendments to IFRS 1 - First-time Adoption of International Financial Reporting Standards, IFRS 9 - Financial Instruments, IAS 41 - Agriculture, and the illustrative examples accompanying IFRS 16 - Leases.

The amendments in question come into force on January 1, 2022.

NOTE 3 - FINANCIAL RISK MANAGEMENT

During its everyday operations, the Company may be exposed to the following financial risks:

- market risk: deriving from exposure to the fluctuation of rates, linked to the financial assets generated and to the financial liabilities assumed;

- credit risk: representing the risk of non-fulfillment of obligations undertaken by the counterparty with regard to the Company's liquidity investments;
- liquidity risk: connected with the need to meet short-term financial commitments.

MARKET RISK

The market risk consists in the possibility that changes of the interest and exchange rates or of the rating of the counterparts with which liquidity is utilized, could impact negatively on the value of the assets, liabilities, or expected cash flows.

Interest rate risk

At September 30, 2020, the Company's financial payables that accrue interest at a fixed rate correspond to the nominal 1 billion euros bond issued in July and the 40 million euros bank debt from the loan agreement with Banca Popolare di Sondrio.

The floating rate component, indexed to EURIBOR, derives instead from the loan taken out in December 2019 with a syndicate of banks for the purchase of the stake in Vodafone Towers. This component amounted to approximately 1,786 million euros nominal at 30 September.

In view of the new fixed-rate bond issue in October for a nominal 750 million euros, the Company did not consider it necessary to conclude derivative contracts aimed at mitigating the risk deriving from interest rate fluctuations. After the second bond issue, the ratio between fixed-rate and variable-rate debt is approximately 65/35.

Exchange rate risk

The Company operates exclusively in euros; therefore, it is not exposed to exchange rate risk.

CREDIT RISK

The Company's exposure to credit risk consists of the potential losses that could derive from the failure of the counterparts, both commercial and financial, to fulfil the obligations undertaken. Such exposure mainly stems from general economic and financial factors, the potential occurrence of specific insolvency situations of some borrowers and other more strictly technical-commercial or administrative factors. The maximum theoretical exposure of the Company to credit risk is the book value of the financial assets and trade receivables recorded in the financial statements.

The Company's main customers are TIM and Vodafone, which, during the reference period of these Financial Statements, generated revenues of 411,211 thousand euros (equal to 86.8% of total revenues at September 30, 2020). The other customers of the Company are the leading national mobile operators with which the Company has entered into multi-year contracts to provide hosting services.

Therefore, the Company is exposed to the risk of concentration of revenues and to credit risk arising from the possibility that its commercial counterparts are not capable or able to meet their obligations. The possible default by one of its commercial counterparts could involve negative effects on the income, balance sheet, and financial situation of the Company. With regard to counterparty risk, formalized procedures to value and assess the reliability of commercial partners are adopted to manage the credit.

LIQUIDITY RISK

To meet its liquidity needs, the Company has a 500 million euros revolving credit facility (RCF) available, granted in December 2019 with a pool of national and international banks available until April 2025, to be used to support working capital and general cash needs. As of September 30, 2020, 152 million euros of this line was used and therefore the remainder was available for drawdown.

Using the proceeds from the issue of the new bond in October, the RCF was fully repaid and therefore its entire amount of 500 million euros is once again available for drawdown.

OTHER RISKS

Risks related to global economic conditions

The COVID-19 health emergency has led to a contraction of the economy, with potentially negative effects on the Company's economic, equity and financial situation. The rapid spread of COVID-19 from March 2020, and the consequent health emergency have led to economic uncertainty, not only in Italy, but globally.

The Company assesses the risk referred to in this Paragraph as medium. Although the COVID-19 health emergency is likely to lead to a contraction in the economy, with potentially negative effects on the economic, equity and financial situation of the Issuer, the activity carried out by INWIT is essential for the provision of the services of the telephone operators.

The Company has also mapped the risks associated with Covid and considers the occurrence of the events subject to these risks to be unlikely to occur given the industrial sector to which the Company belongs – telecommunications, which is among the least affected by the pandemic – and the Company's business model, which is characterized by low volatility, cyclicity of existing hosting, and long-term contracts. The potential risks identified and analyzed by the company were indicated in the previous chapter.

At present, there are no significant negative impacts on the company's results that could generate losses in income/financial performance or delays in its strategic planning.

ASSETS AND LIABILITIES BY CATEGORY

For the purpose of providing information to allow a comparison between the book value and fair value of the financial instruments (required by IFRS 7), it is pointed out that the following assumptions were made to determine the fair value:

- for variable-rate loans: the nominal repayment amount has been assumed;
- for trade payables and receivables and for current financial assets and liabilities, it is believed that their book value is a reasonable approximation of their fair value.

The table below shows the assets and liabilities at September 30, 2020 on the basis of the categories contained in IFRS 9.

NOTE 4 – BUSINESS COMBINATIONS

MERGER BY INCORPORATION OF VODAFONE TOWERS SRL

On March 31, 2020, the acquisition, by merger by incorporation, of VOD Towers Srl, the company that holds the Italian tower and passive infrastructure branch of the Vodafone group, was completed for a total consideration

of 5,698,682 thousand euros, of which 2,140,000 thousand euros paid in cash for the purchase of 43.4% of the share capital of VOD Towers and 3,558,682 thousand euros through the issue of 360,200,000 new INWIT ordinary shares, valued at the market price on the date of the exchange, March 31, 2020 (hereinafter the **"Acquisition Date"**). The new shares are listed on the MTA organized and managed by Borsa Italiana.

The transaction is part of the strategy that INWIT is pursuing in Italy: continuously improving its earning profile and strengthening its market leadership.

The purchase of the minority shareholding and the subsequent merger by incorporation of VOD Towers into INWIT were treated in the accounts as a single business combination transaction, whose accounting method is governed by IFRS 3.

As required by IFRS 3, the Company determined the fair value on the Acquisition Date:

- of the consideration for the acquisition, including the equity instruments issued (hereinafter the **"Acquisition Consideration"**);
- of the identifiable assets acquired, the liabilities and potential liabilities assumed are entered at their current value, with the exception of deferred tax assets and liabilities, the assets and liabilities relating to employee benefits.

With particular reference to the Acquisition Consideration, it should be noted that as part of the contractual agreements for the acquisition of VOD Towers, a price adjustment procedure is envisaged based on the difference between the net financial debt values and the net working capital of INWIT and VOD Towers provided for in the contract and the actual value on the Acquisition Date (hereinafter the **"Price Adjustment"**). The process of defining the final Price Adjustment is still in progress. This Half-Year Report includes the best estimate of the Price Adjustment, equal to 19 million euros in favor of INWIT.

The following table shows the comparison of the book value of the net assets acquired of VOD Towers on the Acquisition Date (as resulting from the quarterly situation relating to the period ended March 31, 2020 of VOD Towers, prepared in accordance with the provisions of the Italian Civil Code governing the preparation of financial statements, as interpreted by the accounting standards issued by the Italian Accounting Body) with the relative fair value at that date, determined provisionally in accordance with the provisions of paragraph 45 of IFRS 3.

The following table shows the provisional determination of the goodwill recognized in the financial statements following the acquisition of VOD Towers, obtained by comparing the Acquisition Consideration with the fair value of the net assets acquired on the Acquisition Date.

<i>(in millions of euros, unless otherwise indicated)</i>	
Number of New Ordinary shares	360,200,000
Fair value of an INWIT share on March 31, 2020 (in euros)	9.88
Fair value of New Ordinary shares	3,559
Acquisition consideration for Minority Shareholding	2,140
Consideration of the business combination	5,699
Provisional price adjustment	(19)
Interim fair value of net assets acquired	(978)
Interim Goodwill	4,702

As previously indicated, given the timing of the transaction, the procedures for determining the fair value of the acquired identifiable assets, the liabilities and the potential liabilities assumed, and in particular the intangible assets, are still in progress and will be incorporated in the financial statements as soon as available and in any event within 12 months from the Acquisition Date. In particular, the goodwill estimate may change with respect to that shown in the previous table due to (i) the determination of the Price Adjustment on the basis of the reference values updated on the Acquisition Date and (ii) the definition of the fair value of the identifiable assets acquired and identifiable liabilities assumed, again on the Acquisition Date, net of the related tax effect, where applicable. The change in the value of the net assets acquired following the valuation of the same at the relative fair value and the determination, where applicable, of the related residual useful lives of the assets acquired, would entail, among other things, the restatement of amortization and depreciation, costs and of revenues that will be recognized in the periods subsequent to the Acquisition Date.

If the acquisition had taken place on January 1, 2020, the total revenues and the EBIT for the first nine months of 2020 would have been equal to approximately 561 million euros and approximately 260 million euros, respectively.

The overall costs relating to the acquisition amount to 12,007 thousand euros and were expensed in the income statement for the year 2019 for 5,252 thousand euros and, for the remainder, in the income statement at September 30, 2020.

.

NOTE 5 – GOODWILL

As of September 30, 2020, goodwill amounted to 6,112,784 thousand euros, and shows the following change:

(thousands of euros)	12.31.2019	Merger	Other changes	09.30.2020
Goodwill	1,411,770	5,300,506	(599,492)	6,112,784
Total	1,411,770	5,300,506	(599,492)	6,112,784

The increase recorded in the period corresponds to the goodwill deriving from the business combination following the acquisition of VOD Towers, (5,300,506 thousand euros).

The decrease in the period relates to the recognition in the financial statements of the fair value of customer contracts of 811,200 thousand euros, net of the tax effect for deferred taxes of 580,008 thousand euros, and to the recognition in the financial statements of the price adjustment with regard to Vodafone equal to 19,484 thousand euros.

In accordance with IAS 36, goodwill is not subject to amortization, but is tested for impairment at least annually or more frequently if specific events or circumstances arise leading to the presumption of such impairment.

In particular, as of September 30, 2020, no external or internal events were identified that would make it necessary to carry out a new impairment test, which will be carried out at the end of the year.

NOTE 6 – INTANGIBLE ASSETS WITH A FINITE USEFUL LIFE

Compared to December 31, 2019, these have increased in value by 775,350 thousand euros, and show the following composition and changes:

(thousands of euros)	12.31.2019	Merger	Additions	Amortization	Other changes	09.30.2020
Patent rights and utilization of intellectual property	848	194	-	(522)	80	600

Total	11,045	242	7,688	(52,552)	819,972	786,395

Capital expenditures for the period came to 7,688 thousand euros. The increase in other intangible assets relates to the recognition in the financial statements of the value of contracts deriving from the allocation of goodwill through the Purchase Price Allocation ("PPA") process (811,200 thousand euros) as well as the capitalization of agency fee costs (9,624 thousand euros).

NOTE 7 – TANGIBLE ASSETS

PROPERTY, PLANT AND EQUIPMENT, OWNED

Compared to December 31, 2019, these have increased in value by 509,760 thousand euros, and show the following composition and changes:

(thousands of euros)	12.31.2019	Merger	Additions	Disposals	Depreciation	Other changes	09.30.2020

Miscellaneous receivables and other non-current assets relate to prepaid expenses towards suppliers.

Receivables from Parent Company mainly refer to hosting services and the recovery of costs for services provided.

Miscellaneous receivables and other current assets mainly refer to guarantee deposits (1,440 thousand euros), advances to suppliers (2,265 thousand euros), tax receivables for taxes and fees (1,642 thousand euros) and the Price Adjustment with Vodafone Italia (20,800 thousand euros).

The book value of trade and miscellaneous receivables and other current and non-current assets is considered a reasonable approximation of their respective fair value.

NOTE 11 - EQUITY

At September 30, 2020, equity amounted to 4,535,635 thousand euros, the breakdown of which is as follows:

(thousands of euros)	09.30.2020	12.31.2019
Share capital issued	600,000	600,000
Minus treasury shares	-	(222)

Total	4,535,635	1,561,193

Additional paid-in capital, amounting to 3,691,703 thousand see euros – see Note 4 - "Business combinations".

BENEFIT PLANS IN THE FORM OF EMPLOYEE STOCK OPTIONS

The Provision for instruments representing net equity of 34 thousand euros refers to:

- the general stock option plan (19 thousand euros) in existence within the TIM Group and subscribed to by a number of employees who transferred to INWIT;
- the 2014-2016 stock option plan (15 thousand euros) launched by the TIM Group and subscribed to by a number of employees who transferred to INWIT;

NOTE 12 – EMPLOYEE BENEFITS

The item has the following breakdown and movements:

(thousands of euros)	12.31.2019	Merger	Increase/ Present value	Decrease	09.30.2020
Provision for employee severance indemnities	1,791	1,414	275	(307)	3,173
Total	1,791	1,414	275	(307)	3,173
Of which:					
Non-current amount	1,791				3,173
Current amount	-				-

Compared to December 31, 2019, the **Provision for employee severance indemnities** increased by 1,382 thousand euros mainly following the merger by incorporation of VOD Towers (1,414 thousand euros).

NOTE 13 – PROVISIONS FOR RISKS AND CHARGES

Compared to December 31, 2019, these have increased in value by 464,875 thousand euros, and show the following composition and changes:

(thousands of euros)	12.31.2019	Merger	Increase	Decrease	Other changes	09.30.2020
Provision for restoration costs	101,506	114,823	4,189	(354)	-	220,164

- **Other financial payables** referred mainly to loan agreements with TI Finance repaid in the first half of 2020.
- **Finance lease liabilities** refer to leases accounted for pursuant to IFRS 16, which has come into force on January 1, 2019.

Financial payables (short-term):

- **Amounts due to banks** mainly refer to loan agreements, net of the related issue discounts and accrued income and prepayments, subscribed in December 2019 with a pool of Italian and international banks relating to:
 - a Bridge Loan of 633,749 thousand euros with a duration of @@ due to the reclassification to short-term of the portion repaid in October 2020;
 - a revolving credit facility ("RCF") drawn down for 152,000 thousand euros.
- **Bonds** refer to the accrued interest maturing in July 2021.
- **Finance lease liabilities** refer to leases accounted for pursuant to IFRS 16, which came into force on January 1, 2019;
- **Other financial payables** referred mainly to loan agreements with TI Finance repaid in the first half of 2020.

"COVENANTS", "NEGATIVE PLEDGES" AND OTHER CONTRACT CLAUSES IN EFFECT AT SEPTEMBER 30, 2020

The banking loan agreements include some general pledges and covenants, both positive and negative, in line with market practice for loans of similar amounts and nature.

The loan agreement signed in December 2019, for an amount of 3,000,000 thousand euros, contains some general and covenant commitments in line with market practice and legal standards prepared by the Loan Market Association which grant lending Banks the faculty to cancel the commitments undertaken and/or request early repayment of the sums used by the Company.

NOTE 15 – NET FINANCIAL DEBT

The table below shows the Company's net financial debt at September 30, 2020, calculated in accordance with paragraph 127 of the recommendations contained in ESMA document No. 319 of 2013, implementing Regulation (EC) 809/2004.

The table also includes the reconciliation of net financial debt calculated according to the criteria established by ESMA and those used by INWIT to monitor its own financial position.

Interest to banks refers to the financial charges paid during the period for the syndicated loan agreement and the interest incurred on medium/long-term financial payables (*Bridge and Term Loan*) described in Note 14 - Financial liabilities (non-current and current).

Interest expense on bonds refers to the financial expenses relating to the bond issue.

Interest expenses on finance leases refer to leases accounted for pursuant to IFRS 16, in force from January 1, 2019.

Financial fees mainly refer to the fees paid for agreeing and using the 3-billion-euro loan agreement to finance the Company's acquisition of the minority interest in VOD Towers and distribution of the extraordinary dividend net of accruals and deferrals for the period.

The **Other financial expenses** chiefly refer to the adjustment of the provision for restoration charges (3,214 thousand euros) and to the intercompany loan (255 thousand euros).

NOTE 21 – CONTINGENT LIABILITIES, COMMITMENTS AND GUARANTEES

MAIN DISPUTES AND PENDING LEGAL ACTIONS

As of September 30, 2020, the Company is involved in about sixty disputes, four of which indicated as having a "probable" risk of being lost by defence lawyers.

In relation to the progress of the aforementioned cases and based on the information available at the time of closing these Financial Statements, a total amount of 150 thousand euros has been allocated to the risk provision.

COMMITMENTS AND GUARANTEES

With regard to guarantees issued by banks or insurance companies to owners of the land where the infrastructure is located, INWIT has undertaken to reimburse all sums that for any reason whatsoever the bank or the insurance company were to bear due to failure to comply with contractual obligations, the Company waiving any objection or opposition, including any legal action.

NOTE 22 - RELATED PARTIES

The tables summarizing the balances of related party transactions in absolute amounts and as a percentage of the corresponding values of the separate income statement, of financial position and cash flow statement are shown below. Related party transactions, when not dictated by specific laws, were conducted at arm's length. The transactions were subject to an internal procedure (available for consultation on the website www.inwit.it), which establishes procedures and time scales for verification and monitoring.

Although said agreements were settled at normal market conditions, there is no guarantee that, if they had been entered into by or with third parties, the latter would have negotiated and concluded them at the same conditions and by the same methods.
